The cost of contract or subcontract work expressed as a percent of payroll for 1963 was: for Metall Mining Services, 3 percent; for Mercury Ores, 13 percent; for Titanium Ores, 23 percent; for Uranium-Radium-Vanadium Ores, 24 percent: and for Metallic Ores. NE.C.. 0.4 percent.

Represents establishments with zero or negative value added; establishment with no employees; and, for number of employees and payroll, includes figures for separately reported central offices and related facilities.

Figures for ratio class 0.80 to 0.89 are included with those for ratio class 1.00 and over.
